

South Pacific Laser Masters 2019 Forum: The Future of the Laser

SOUTH PACIFIC LASER MASTERS

Thursday Night Forum The Future of the Laser

The Laser Forum is a **MUST** for any sailor interested in the future of the class and especially the reasons behind the current rule change and why we must all vote “Yes”.

The expert panel will consist of Nick Page, the NZDLA president, who is deeply involved in the rule change and Olympic negotiations; Clive Humphris the ILCA Technical Officer; and Ash Brunning who was selected as one of the expert Laser sailors to participate in the four class Olympic trial a few months ago.

The discussion will be moderated by ALCA masters representative Rob Lowndes in a Q&A type format.

Questions will be welcome and the topics will cover the four class trial, the World Sailing requirements for future Olympic selection and the 1 August deadline, the issues with European builder Laser Performance (LP) and possible changes to the class such as a new radial bottom section and the proposed new C5 rig

Everybody interested in Lasers is welcome

8.00 PM to 9.30 PM on 11 JULY 2019

In

The Royal Queensland Yacht Squadron Auditorium
